Safety Precautions

Explanation of Symbols

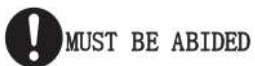

Danger – Indicates a potentially hazardous situation that may result in serious injury or death.

Notice – Indicates a potentially hazardous situation that may result in injury or property damage.

Prohibited – Indicates an action that is forbidden.

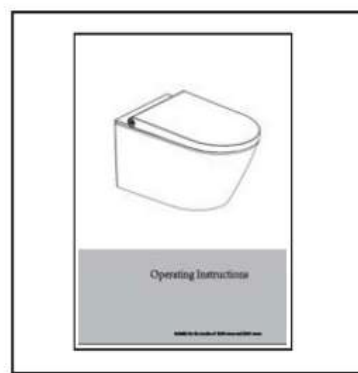

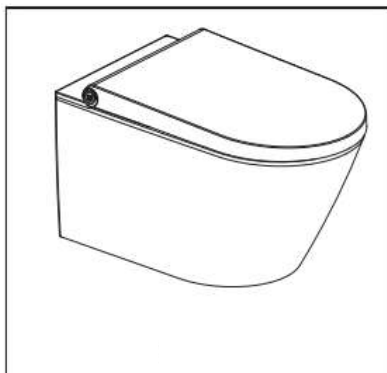

Must Be Followed – Indicates an obligation to comply with the rules.

The supplier shall not be liable for any damage resulting from failure to comply with the following regulations:

1. This equipment is a Class I electrical appliance and must be properly connected to the grounding system.
 2. If the power cord is damaged, it must be replaced by the manufacturer, its service technician, or another qualified person to avoid danger.
 3. This equipment is an electrical appliance – it must not be installed in places where it may easily be splashed with water or where high temperatures prevail. It is recommended to install an exhaust fan or ventilation opening to ensure adequate ventilation when used in a bathroom.

Recommended installation location

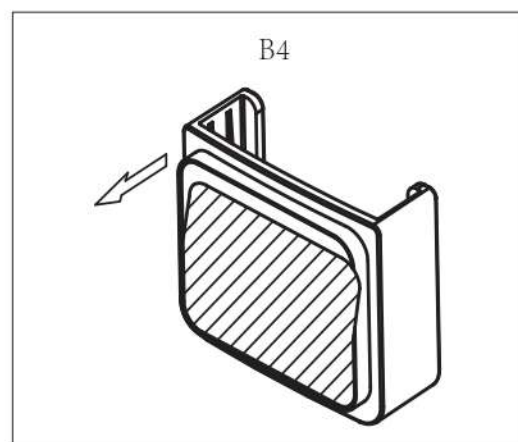

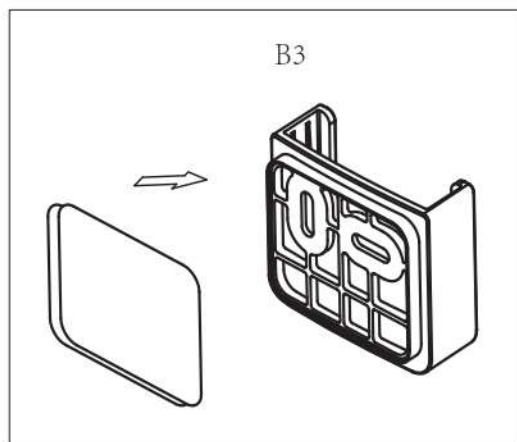

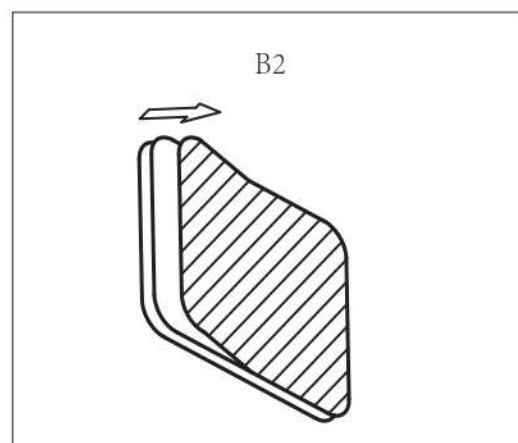

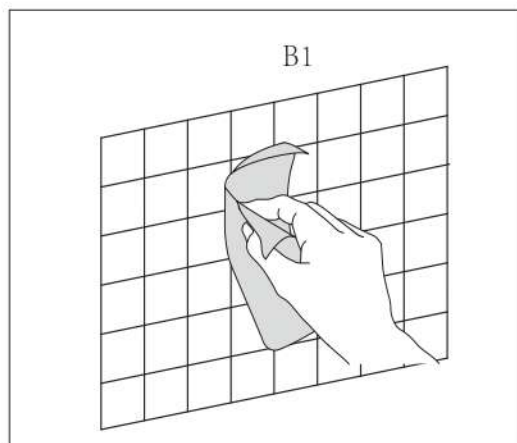

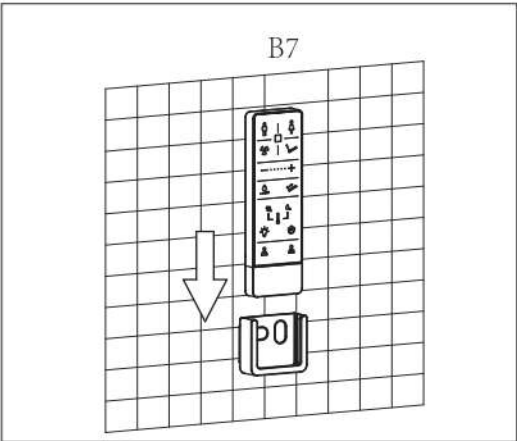

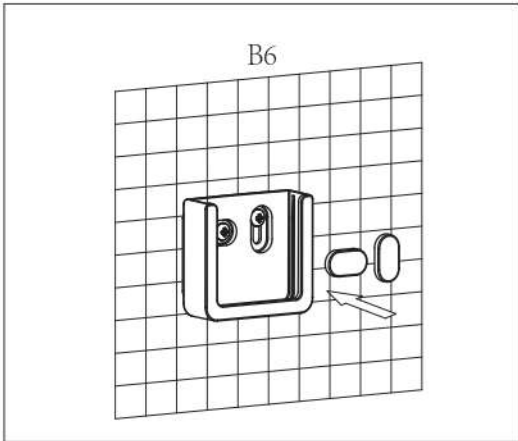

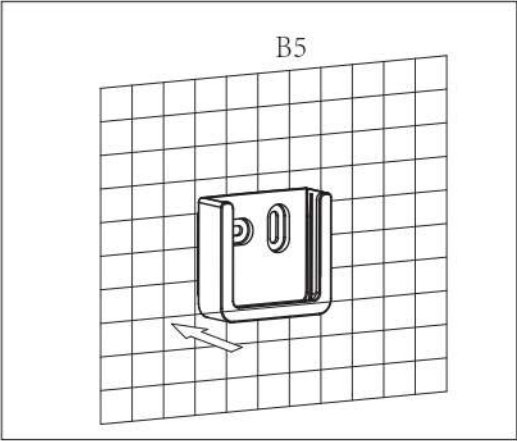

The diagram consists of four panels, A1 through A4, illustrating the assembly process on a grid background.

- A1:** Shows a rectangular device with a handle and a slot. A pencil is shown marking the center of the device on the grid.
- A2:** Shows the device being mounted to the wall. A power drill is used to drill two holes. The text "2-Ø6" and "32" with a downward arrow indicates the hole size and depth.
- A3:** Shows the components of the mounting system: two screws, two washers, and two spacers. Arrows indicate the direction of assembly.
- A4:** Shows the device being secured to the wall. The screws and washers are inserted into the holes, and the spacers are used to secure the device. Arrows indicate the direction of assembly.

Installation Method B
